

**International Finance**  
**Lawrence Krohn**  
**Spring Semester 2025**

---

**E-mail: [ldkrohn@tauex.tau.ac.il](mailto:ldkrohn@tauex.tau.ac.il)**

**Professor will be available in person after class or through e-mail.**

**Course Credits: 3 TAU Semester Credits**

For course times/days and location, please visit the TAU International web site (Study Abroad Course Offerings and Schedules). Please note that all information below is subject to change and/or adjustment as necessary.

**Course Description (Summary)**

We present national income accounting frameworks, then theories of international finance (often known as international or open-economy macroeconomics) and apply them to shed light on important recent global economic events and contemporary cross-border policy issues.

The course begins with a review of national income accounting in the open economy, including examination of the trade, current and financial accounts in the balance of payments. The issues to be examined thereafter include exchange rate determination in the short run (asset approach, uncovered interest parity) and long run (how changes in exchange rates relate to money growth and inflation), the role of exchange rates in producing and limiting short-run variations in output (Keynesian output and income determination in the open economy).

The advantages and disadvantages of fixed-rate, floating-rate and hybrid currency regimes, the causes and consequences of sizable current account imbalances and their implications for nations' net international asset positions, the roles of international money and capital markets and the role played by global financial markets and institutions in the economic crises of 2008 and 2020 and their aftermath through the present. These topics, of course, all relate to each other.

**Course Requirements and Expectations**

There are no prerequisites. Though the course is suitable for all TAU International students, those who have some prior familiarity with macroeconomics will find it initially more manageable. Students are assumed to be comfortable with high school algebra and the use of graphs for simple economic modeling.

Encouraged in class at any time: questions on the material under discussion. Discouraged – indeed forbidden – at all times: any use whatsoever of cell phones or tablets. Laptops are welcome for note taking purposes; otherwise they should be closed during class. Punctuality is expected at all times.

Tel Aviv University International

### Learning Outcomes

By course end, students will understand how purely domestic variables like real output (GDP or GNP), national income, interest rates and inflation rates are determined in open economies (those that trade goods, services and assets across borders). They will also learn how cross-border variables, like a nation's trade, current and financial account balances, exchange rates and the global competitiveness of its tradable goods and services are determined in an open economy (in contrast to the closed economy usually assumed in basic macro courses).

Emphasis will be placed initially on US oriented-issues, but issues unique to other regions will be integrated as well. Israel will not be treated explicitly (as it is the subject of another TAU offering). This course is meant to serve both 1) students who will one day engage in, or work for employers engaged in, cross-border economic activity, and 2) those who will not, but seek nonetheless a greater ability to understand the discourse of outstanding publications like the *Financial Times* and *Economist* (among many others). The lectures will make regular reference to current events.

### Evaluation Criteria

Attendance 10%

Homework submission 5%

Mid-term examination (open-book, open-notes, taken remotely) 30%, due April 9, 2025

Final examination (open-book, open-notes, taken remotely) 55%, due May 29, 2025.

### Absence Policy

*Please note the TAU International Absence Policy as outlined on the next page.*

### Course Schedule

**Note: None of the KOM appendixes are required.**

**Weeks, 1 and 2, Sessions 1 through 4 (3/10, 12, 17, 19): Introduction to Macroeconomics and International Finance**

Reading (optional): Mankiw Chapter 23 and Chapter 26, 2½ pages on saving only

**Weeks 3 and 4, Sessions 5 and 6 (3/24, 26) National Income Accounting and the Balance of Payments**

Reading: KOM Chapter 2, KOM Chapter 3 (Omit p. 51 – 55 boxed case study.)

**Week 4, Sessions 7 and 8 (3/31, 4/2) Exchange Rates and the Foreign Exchange Market**

Reading: KOM Chapter 3 (Omit end-of-chapter case study, pages 85-88.)

The online mid-term exam will be distributed electronically on April 2, due April 8

**Week 5, Session 9 (4/7): Money, Interest Rates and Exchange Rates.**

Reading: KOM Chapter 4 (Omit end-of-chapter pages 116 – 125 (Inflation and Exchange Rate Dynamics))

No class on April 9, 14, 16, 30

**Week 7, Session 10 (4/21) Money, Interest Rates and Exchange Rates (continued).**

Reading: KOM Chapter 4 (Omit end-of-chapter pages 116 – 125 (Inflation and Exchange Rate Dynamics))

**Week 7 and Week 8, Sessions 11 and 12 (4/23, 4/28): Price Levels and the Exchange Rate in the Long Run**

Readings: KOM Chapter 5 (only pp. 131 – 138, 141 – 49); *The Economist's* Big Mac index (January 2025 revision) <https://www.economist.com/big-mac-index>

**Week 9, Sessions 13 and 14 (5/5, 5/7): Output and the Exchange Rate in the Short Run**

Reading: KOM Chapter 6 (only pp. 169 – 90).

**Week 10, Sessions 15 and 16 (5/12, 5/14) Fixed Exchange Rates and Foreign Exchange Intervention**

Reading: KOM Chapter 7 (only pp. 216 – 225).

**Week 11, Sessions 17 and 18 (5/19, 5/21): International Monetary Systems and Update on Current Events in International Macro**

Reading: Chapter 8 (the following three sections only: pp.261 – 271 [but omit New Zealand box on pp. 266 – 69], pp. 280 – 87, 292 – 96.)

The online final exam will be distributed electronically on May 22, due a week later, May 29.

### **Course Readings and/or Required Materials**

The basic text (abbreviated KOM) is Paul Krugman, Maurice Obstfeld and Marc Melitz, **International Finance: Theory and Policy**, 11th edition, 2018. ISBN-10: 9781292238739. ISBN-13: 978-1292238739. (This is the 'global' edition. The 11th U.S. edition is nearly identical in content.) A ProQuest electronic edition (EBook), is available from the TAU library website; materials can be downloaded and printed (though not all at once). Copies are also available from the TAU Social Sciences Library. The daily *Financial Times* and weekly *Economist* are highly desirable supplemental (though optional) reading. A very useful quarterly publication is the IMF and World Bank's *Finance and Development*

<https://www.imf.org/external/pubs/ft/fandd/index.htm> .

### Instructor Biography

Lawrence Krohn, a dual citizen, has specialized in global macroeconomics since 1984. In 2008, he returned to academia after a 25-year career in financial services, during which he served initially as international and U.S. economist, later as chief economist for Latin America at several banks (some of blessed memory), including Lehman Brothers, UBS, DLJ, ING, and Standard Bank. During those years, he wrote regularly on Latin America, made frequent research trips to that region, and visited portfolio managers around the globe.

Larry graduated from Penn's Wharton School, served two years in the US Peace Corps (Tunisia) and earned his PhD in economics at Columbia University. He taught economics at Columbia, Oberlin College and in Canada before embarking on his financial services career, which gave way in 2008 to a full-time position at Tufts University's Fletcher School; he continued to teach there through 2023. In 2012, Larry received the school's James Paddock Teaching Award. He remains passionate not only about economics, but also dogs, music of all sorts, movies, foreign travel and architecture. Larry grew up near New York City, spent most of his career there, but relocated to Tel Aviv in 2020. He has taught in TAU's Lowy School program since 2020 and has also taught international and corporate finance at Mikhlelet Sapir and Akademit Tel Aviv-Yafo.

### TAU International Academic Guidelines

Students may only attend classes which they are officially registered for. No auditing of courses is permitted. Students are responsible for reading and adhering to all policies and procedures in the TAU International Academic Handbook [posted here](#) at all times. Below is a summary of some of these relevant policies and procedures.

### Learning Accommodations

In accordance to University guidelines, TAU International may be able to accommodate students with learning disabilities or accommodation requests if these requests are also honored at the student's home university or home school. To be considered, students must submit official documentation from their home school or university (if not in English, a notarized official copy translated into English is required) to TAU International in advance of arrival describing in detail any specific needs and how these are accommodated at the home school or university. Students must also bring a copy of this documentation with them on-site and give it to their faculty on the first day of class while introducing themselves so that the faculty know who they are and what sorts of needs or accommodations they may have. **Without official documentation from the home school submitted on or before the first day of courses, TAU will not be able to honor accommodation support.**

With supporting documentation and by following the correct procedure as outlined above, TAU International and its faculty will do the best it can to make any suitable accommodations possible. However, we cannot guarantee that all accommodations received at the home school can be

similarly met at TAU. For example, TAU is usually not able to offer note-taking services in English, private testing rooms, or advance viewing of classroom presentations, exams, or assignments.

It may be an option to provide a student with additional tutoring or support outside the classroom as needed. Students should be aware that this additional support cannot be guaranteed and is based on teacher availability in the subject as well as the specific student level. If available, the cost of additional tutoring or support will be the sole responsibility of the student.

### **In-Class Exams**

TAU does not permit, under any circumstances, taking any in-class (including mid or final) exams early or later than the scheduled exam day. When selecting courses, it is thus very important to note if there is an in-class midterm or final exam as this date/exam cannot be changed. It is also the student's responsibility to clarify exam dates with the professors at the beginning of a course, with the understanding that not all exam dates can be decided up front as it can sometimes depend on the pace of the course and class learning. It is the student responsibility to plan to be present for all courses including the final day of class for this reason. Early departures from the program are not approved, nor are early or exception in-class exams.

### **TAU International Absence Policy**

Attendance is mandatory in all of the courses including Hebrew Ulpan. Faculty can and will take attendance regularly. Missing classes will be reflected in the final grade of the course. Up to three justified and properly documented absences from classes may be accepted (for example: emergency matter or illness, both of which will require a doctor's note). Such cases of absence should be reported to the faculty immediately and again, a doctor's note is required. Teachers are entitled to treat any lateness or absence without documentation as unexcused. Some of our courses such as Service Learning or the Internship Seminar require more practical in-class work; thus, attendance policies may be stricter in some courses and students then must adhere to the stricter attendance policy as outlined by the faculty/syllabus.

Students are required to arrive on time for classes. Teachers are entitled to treat any single case of lateness and/or repeated lateness as an unjustified absence.

Please note that according to official TAU Academic Policy, if a student's behavior or attendance during is disagreeable his/her course participation may be cancelled at the discretion of TAU with no due refund.

### **Grade Appeals**

Students are responsible for checking grades once posted or distributed by faculty. The limited grade appeals window and the detailed procedure for appealing a grade – whether a graded assignment, exam or final grade – is outlined clearly in the policies and procedures in the TAU International Academic Handbook [posted here](#).
