ABOUT TEL AVIV UNIVERSITY

Tel Aviv University (TAU) is Israel's largest academic institution. TAU was founded in 1956 when three smaller education units - the Tel Aviv School of Law and Economics, the Institute of Natural Sciences, and the Institute of Jewish Studies - joined together to form a comprehensive university.

Today, TAU offers an extensive range of degrees in the arts and sciences, within its Faculties of Engineering, Exact Sciences, Life Sciences, Medicine, Humanities, Law, Social Sciences, Arts, and Management. The original 170-acre campus has been expanded to include an additional 50-acre tract, now being developed. Its faculty includes nationally and internationally renowned scholars and scientists, many of whom are leaders in their fields.
RESEARCH CENTERS AND INSTITUTES

Tel Aviv University has over 2,200 faculty members, among them internationally renowned scientists who have made significant contributions to the advancement of knowledge in fields as diverse as particle physics, cell biology, biotechnology, genetics, fiber optics, the humanities, arts and social sciences. Israel's largest and most comprehensive university, TAU is comprised of nine faculties, 27 schools, 98 departments and some 130 research institutes and centers. Institutes and centers support research in a specific field. Often interdisciplinary in nature, they provide a formal framework for researchers, as well as their master's, doctoral and post-doctoral students, to collaborate and exchange ideas.

The University enjoys extensive research contacts with leading academic and scientific institutions abroad, including over 150 cooperation agreements with universities in North and South America, Europe and Asia.
PREARRIVAL AND ARRIVAL
PREARRIVAL AND ARRIVAL

TRAVEL DOCUMENTS

Passports
All visitors to Israel must hold a passport that is valid for at least six months from the date they enter the country. In order to enter Israel as a student, you must have a passport that is valid for at least a year from your date of entry into the country. If you do not have a valid passport, apply for one immediately. If you hold an Israeli passport, you are required to present it upon arrival.

Student Visas
1) Students who do not hold an Israeli passport may want to consult with the Israeli embassy in their home country regarding visa and entry regulations. International students in Ph.D. programs, and Post Docs are able to work in the university as research assistants with the student visa.

2) All students should apply for a student visa (A-2) prior to their departure. The A-2 Student Visa is a multiple-entry visa valid for one year, meaning that you may enter Israel an unlimited number of times for a period of one year without securing a new visa. Student visas are renewable after one year both in Israel and abroad. You must apply for an A-2 visa in person at your nearest Israeli consulate.

3) Please note: It is illegal to study in Israel on a tourist visa. The following is a list of papers required for this procedure:
   a) Application for Entry to Israel
   b) Valid passport
   c) Passport-sized pictures
   d) Acceptance letter to the program
   e) Proof of sufficient funds (a bank statement is acceptable)
   f) Scholarship statements, if relevant.
   g) Fee of $47

4) Some students will not be able to enter Israel without receiving a student visa ahead of time because they are not automatically granted tourist visas upon arrival to Israel.

5) If for some reason you could not apply for your student visa before leaving your home country, you must take care of it immediately upon arrival in Israel at the Ministry of Interior (See "A" above for the checklist).
Ministry of Interior detail

Ministry of Interior details:
Derech Menachem Begin 125, Tel Aviv-Yafo
Office hours: Sundays – Thursdays, 8:00 AM – 5:00 PM

Families of students do not receive a student and/or work visa. If a spouse of a student wishes to work during their stay in Israel, he/she must find an employer willing to sponsor a work visa.

For any questions regarding visas, please contact Avi Zarakhovsky: 03-6409989/5119 or aviz@tauex.tau.ac.il.

**It is recommended to arrive to the TAUi office to advise with Ms. Hanna Dolgonos before going to the ministry of interior.

Israeli Born & Returning Israeli Citizens
If you are a returning Israeli citizen or child of a parent with Israeli citizenship, please contact the nearest Israeli Consulate to clarify your legal status in advance of entering the country. Israeli citizens or children of Israeli citizens should check their status regarding military service and might want to apply for an exemption through their nearest Israeli consulate before arrival in Israel.

PACKING ESSENTIALS

Clothing
On-campus dress is fairly casual. Most students attend classes and campus events in jeans and T-shirts. Women may want to bring modest attire (skirts or dresses that cover the shoulders and knees) for visits to religious sites in Israel. Both women and men should plan to bring semi-formal attire for professional meetings and networking, special occasions and nights out. As dry cleaning is relatively expensive in Israel, please bring clothes that can be easily cleaned.

Most of the year is warm or even hot. During the hot summer months, the traditional casual dress code becomes even more relaxed-if you are sensitive to air conditioning, make sure to pack a few sweaters or a shawl. In the winter, warm clothing is necessary, as many buildings are neither centrally heated nor well insulated. From December until March, the weather can be rainy, damp, and cold.

For organized trips, as well as your own sightseeing, a pair of good walking shoes is a must.

Cosmetics and Toiletries
Cosmetics, toiletries, and other personal supplies are readily found in Israel, although they might be more expensive than in your hometown, and specific brands are not always available.
Medication
If you are taking a prescribed medication, you should bring a supply to last the duration of your time in Israel. It is also recommended that you bring a typewritten, generic prescription for your medication, should you need to have it refilled. Since some of your medication might not be available in the same brand names in Israel, it is essential that a generic name be provided for reference by a local doctor or pharmacist. Also, in the event that you are sent an additional supply of medication by mail, you will be required to present a prescription to the Israeli Customs Office before the medication will be released.

Please see the 'Health insurance' section for information regarding obtaining prescription medication in Israel.

Electrical Appliances
Electrical appliances should be kept to an absolute minimum. Because of Israeli customs restrictions, a limit on electrical appliances is advisable. The electrical current in Israel is 220 volts, 50 cycles. You may be able to bring a transformer for certain appliances, such as a hair dryer. Some appliances cannot be converted. Be sure to check with an authorized electronics dealer for detailed information.

FLIGHT AND ARRIVAL

Baggage Information
Please contact your airline operator regarding baggage regulations.

Experience has shown that it is best to take your belongings with you and to check them on the flight. It is not recommended to ship luggage to Israel for your program as incoming goods may be taxed if they are shipped. This is the case even if they are your own personal items and even if they are used. Further problems may arise, as there is no way to know exactly how long your shipment will take to arrive. In addition, packages shipped by sea will arrive at the Port of Haifa, which is more than an hour away from Tel Aviv. You will have to get to Haifa, take the shipment through customs, declare all items, and then transport your luggage from Haifa to your apartment. Former participants have said that if you have an extra piece of luggage, you are bringing too much. However, if you must, it is worthwhile to avoid shipping and pay the extra charge for each additional piece of luggage taken on your flight.

Arrival
At Israel's Ben Gurion International Airport (known by its Hebrew acronym 'NaTBaG'), your first step is passport control. Please note that passport control might take some time depending on how busy the airport is and how many questions the officers have for you. Come prepared with relevant documentation from TAU to show the inspectors. Make sure that you have made arrangements for housing, to meet with friends or family, or to stay in a youth hostel when you arrive.

Upon your arrival at Ben Gurion Airport, there are two main ways to get to Tel Aviv:

Arriving by Train:
If you arrive from the airport by train you'll need to get off on "Tel Aviv University Station" and exit through the "University Exit". The Campus is within walking distance from the train station, but if you arrive with heavy suitcases, you may want to take a cab or a bus.
bus lines 40/49/289 to Broshim Campus/Shalom Rosenfeld station. Here is a link to a google map that may assist you: How to arrive from the Train station to Broshim. If you want to consult train schedules ahead of time, you can see these on their website.

Arriving by Taxi:
The cost is about 150-175 NIS from the airport to the Einstein or the Broshim Dorms. You should only get a taxi at the airport from the official Ben Gurion Airport Taxi Stand which is outside the doors of the airport (there will be signs pointing you to the stand when you walk through the airport). We strongly recommend that you do not accept a taxi ride from anyone offering inside the airport. These are not regulated taxis and the fare could be much higher. Regardless of which taxi you take, it is recommended when you get in the taxi to ask the driver to put on the meter, or set a price similar to 150 NIS. It is recommended that you have cash (ATM's are inside the airport) for the taxi, although some will take credit cards. Always ask before you get in the taxi if credit is accepted. The address to tell the taxi for Einstein is Chaim Levanon Street 63 and for Broshim it is George Wise Street 20.

For general information on transportation to and from Ben Gurion Airport go to this link. Please refrain from bringing your luggage into the University campus, as it will be subject to security inspection and there are no storage facilities on campus. Students staying in the dormitories must arrange entry by contacting the TAUi Student Life Team in advance: intlgrad@mail.tau.ac.il.

Safety and Security
The safety of our students is our highest priority. Like all public institutions in Israel, Tel Aviv University employs a network of security personnel covering all campus entrances and patrolling throughout the campus and dormitory complex 24 hours a day. Students should be prepared to show student cards or another picture ID and submit bags for search.

The University’s Security Department maintains close contact with government security agencies. The international student population is regularly updated regarding security matters and receives copies of all relevant official communications. Specific security information will be given at the student orientation.

Additionally, foreign citizens are advised to register with their local embassy. This can be done either in person, or online, in many cases.

Finally, students are advised to carry some form of government-issued photo identification at all times. International students may want to also carry a photocopy of the first page of their passport.

Tel Aviv University has well-marked signage in Hebrew and English directing people on campus and in the dormitories to the closest shelters ("miklat or mamad") should there be a need to take shelter. All shelter locations for campus and the dormitories are posted on the TAU web site; please click here to read more information about how to react in case of a siren. Additionally, Tel Aviv University has outstanding evacuation arrangements with other institutions throughout Israel. Specific information on such arrangements can be obtained from the TAU International Office.
HOUSING

ON-CAMPUS HOUSING

The two relevant dormitory complexes are adjacent to campus. Please click here to see the location of the dormitories on the TAU map.

Einstein Dormitories

The Einstein student dormitories are located across the street from the Tel Aviv University main entrance (to the west). Virtual tour of Einstein dorm complex (outer area).

Shared rooms are sometimes available there for our international graduate students and researchers, however please note that the Einstein solution is only temporary and subject to availability.

Each dormitory suite is divided into two bedrooms, with two students sharing each bedroom. Each suite is fully furnished and includes a kitchen and bathroom, air conditioning, Wi-Fi, and cable TV. The dorms are inspected upon move-in and any damage done during student's stay will have to be covered by the student. A self-service laundry is located within the dormitory complex. Additional laundry and cleaning facilities are available in nearby shopping centers. Please note that the shared areas should be cleaned by the tenants on a weekly basis. Students who are living in the dorms are expected to sign a contract and pay in advance.

**Student City – Broshim Dormitories**

The dorm complex, at the south-west tip of the campus, comprises eight residential towers (two more in construction as of summer 2019). Around it, there are shops, cafes and recreational facilities such as a student club. [Virtual tour of Broshim dorm complex](#) (outer area).

Several kinds of units are offered to graduate research students: single studios (for one person), couple studios (for couples), and family suites (for families with up to 1 child). All are designed to provide a safe, warm and comfortable environment that will make the residents feel at home.

Each suite is fully furnished, has a private kitchen and bathroom, and includes air conditioning, Wi-Fi, and cable TV. The dorms are inspected upon move-in and any damage done during student’s stay will have to be covered by the student. A self-service laundry is located within the dormitory complex. Additional laundry and cleaning facilities are available in nearby shopping centers.

Price: the rent ranges between **ILS 2,268 – ILS 4,142 per month, depending on type of apartment.** The price includes Wi-Fi and Cable TV, but does NOT include the following: Municipality Tax (contingent
the size of the apartment and its surrounding, approximately ILS 70-202), electricity charge and water (this is subject to apartment usage). All fees will be updated on a monthly basis in accordance with the Israeli Price Index.

Students who are living in the dorms are expected to sign a contract and pay in advance.

Please note:

- TAU International has a very limited variety and amount of apartments. We do not take requests for specific apartments (i.e. specific view, with/without balcony etc.). Available apartments are allocated only by the type of apartment (i.e. apartment for single, for couple, or for family) and according to the waiting list.

- A couple cannot live in a single studio. If you have a partner who will live with you from the start or join you later during the contract period – you need to apply for a "Couple/Family room" from the start.

- A family with child cannot live in a couple studio. If you have a child, or you are expecting a child, you should choose "Couple/Family + child" from the start.

- The contract period is until the end of September. Once you sign a contract for an apartment, it will NOT be possible to change the apartment until the end of the contract (i.e. there is no possibility to sign a contract for single studio and later switch to a couple/ family room).

- The contracts are yearly, and correspond with the academic year starting on October and ending in September of the following year.

- If you are living in a studio apartment and later require a bigger/ smaller apartment, you will have to re-enlist to the waiting list for a different apartment and it will be subject to availability – please note that we cannot guarantee that your request will be possible.

- Virtual tour inside a Single studio apartment (approximately 18 square meters)
- Virtual tour inside a Couple studio apartment (approximately 25 square meters)
- Virtual tour inside a Couple 3 room apartment (approximately 52 square meters)

If you have housing-related questions after thoroughly reading this document, please email: housing@tauex.tau.ac.il.

GUEST APARTMENTS

Guest apartments might be a suitable solution for limited time. The Einstein Complex guest apartments include 8 residential units and the Broshim Complex includes 46 additional units. The guest apartments are suitable for single, couples and family occupancy.

For Guest apartments reservations, you should contact the dorm management directly.

The apartments are furnished, LCD cable television, internet, air conditioning, complete shower and toilet, fully equipped kitchen, microwave oven, electric stove, electric kettle, coffee set, linen replacement and housekeeping of the apartment. In addition the guest may use other complex services: self-service laundry (fees apply) and computer room 24/7.
Please note, the pricing is per night, like a hotel, and availability is not guaranteed. Prices range between ILS 185-340 per night, depending on apartment type and amount of nights.

For more information, you are welcome to visit their website and contact them.

Please note that the following items are not supplied by the University (at Einstein or Broshim): blankets, pillows, towels, kitchen utensils, and household goods. Students may bring their own linens and electrical appliances or choose to buy from an Israeli company that provides these supplies, such as 4-Less or SimHub. Please visit their websites for details and prices. If you have questions, please use “contact us” on the websites.

The following quantities of linens are usually sufficient: two blankets, two to four sheets, two pillowcases, one pillow, and four towels. Please note that beds in the dorms are slightly longer and narrower than American twin beds.

Management of the dormitories is handled by a third-party company (Shikun U-Binui’i), which should be contacted directly regarding any maintenance-related issues. Contact information will be provided upon entrance to the dorms.

OFF-CAMPUS HOUSING

Many international students choose to live in nearby off-campus apartments. Sharing a standard apartment with one or two roommates may cost the same as the dorms.

Please find some guidelines below.

If you live in Ramat Aviv, you can walk to TAU. Living in the city center allows you to have access to the beach and the city action. From the city center, the bus can take between 20 to 45 minutes to reach the university. The first question to ask yourself when looking for housing is whether you prefer to live near the university in Ramat Aviv or in central Tel Aviv.

Apartment hunting in Tel Aviv can be quite time consuming, and the process might be lengthy. This can be partially explained by the extremely fast-moving market. Students are advised to set time aside specifically for apartment hunting prior to the start of the program. **Two to four weeks are recommended for apartment searching.**

There are plenty of real estate brokers but expect to pay one month’s rent as a finder’s fee if you find an apartment through them, plus 17% VAT.

Students may want to consider finding a short-term rental for the first couple of weeks while looking for a permanent apartment.

Airbnb is very popular in Tel Aviv and you might find great solutions for short-term housing: [https://www.airbnb.com/s/Tel-Aviv~Yafo--Israel]
Hostels could be a great option for short-term solutions. Please find a list of providers below:

Depending on a variety of factors, you should be prepared to pay anywhere from ILS 2,500 (living with 1/2 roommates) to ILS 4,000 (living alone) per month for a partially furnished apartment. The following websites will help you in your search:

- **Yad2**: (Hebrew)
- **Jaanglo**: (English)
- **Tanglo – Yahoo group**
- **WinWin**: (Hebrew)
- **Homeless**: (Hebrew)
- **Craigslist**(English)

**Facebook groups:**

Note: Some of the groups maybe closed groups, meaning you should ask to join and the administrator needs to approve the request.
Feel free to ask anybody and everybody. This is actually a very effective way of finding housing, jobs, and information. Personal connections go far in Israel, especially since apartments come and go very quickly in the city. We are happy to help, even if it is just to brainstorm ideas about finding what is right for you.

When looking for an apartment, we highly recommend clarifying the following issues:

**Apartment Details**

- Where is the apartment located?
- How big is the apartment in square meters?
- On what floor is the apartment? If it is on the ground floor, are there security bars on the windows?
- What appliances are included in the apartment (many apartments do not include major appliances such as an oven, stove, or fridge)?
- What furniture is included?
- Is there air conditioning? Heating?
- What else is included in the apartment?
- Is there a roommate? What are your impressions of him/her?

**The Area**

Visit the neighborhood during both the day and at night to get a feel for the area. Is it loud at night? Does it feel safe after dark? Is it near a bus route to the university?

**Rent**

- What does your rental payment include (va’ad bayit – building maintenance fees? all-inclusive – water, gas, electricity, maintenance fees, cable Internet, phone, etc.)?
- How often is payment due and in what form (12 checks in advance? 6 checks in advance? 1 lump sum? Cash? (Never pay cash unless you receive a receipt!)}
**Bills**

- How much is *Armona* (municipality tax) every month?
- Is there an electric heater for water (*dood chashmal*) or is it solar powered (*dood shemesh*)?
- How much is electricity and water, on average, per month?
- How much are the *va’ad bayit* maintenance fees each month?

**Signing the Lease**

- Can the lease be written in English?
- Is there a need for a guarantor?
- Do they require a lawyer to review the lease? If so, who covers the cost?

**Legal consultant**

We recommend getting legal advice from the student union’s lawyer before signing an apartment contract. **Legal consultant** is a free service given by the Tel Aviv University student union. To schedule a meeting with **Adv. Ran Shoval** in the student union call: 03-6407654. Their working days & hours: Sunday-Thursday, 9:00am-5:00pm.

Please see the map on the next page to get a good picture of the neighborhoods of Tel Aviv.
1 Tel Aviv University, in Ramat Aviv
2 Basel – the North is close to the park, the port and TAU. Tons of restaurants (~10 min)
3 Ben Gurion, Gordon and Frishman – close to the beach and young (~20 min)
4 Rabin Square is very central. You’ll find everything there 24/7. (~20 min)
5 The Heart of Tel Aviv – with Rothschild, Shenkin and more is fun and beautiful (~30 min)
6 Neve Tsedek – an old neighborhood full of charm close to the beach (~45 min)
7 Florentin – trendy, vibrant, cheaper but also slightly run-down; many students & artists (~50 min)
8 Yafo – many bigger apartments available, great atmosphere, a bit far (~55 min)

Off-Campus Housing Information for Students

The information below is a summary of past alumni recommendations for finding off-campus housing. Special thanks to alum Robert Fuller for helping to compile this. Again, the following are recommendations from former students and should not be read or understood as legal advice. For legal advice, Tel Aviv University offers legal services through the Student Union.

About this Handout: Finding a suitable place to live is an issue that often weighs on the minds of new students in Israel. Locating an apartment, signing leases and dealing with problems as a tenant can often be a distraction for students, while they cope with their studies. However, with careful preparation and foresight, along with the resources provided at the university, finding a comfortable place to live can be a relatively straightforward procedure. While not every aspect of your apartment and tenancy will be perfect, this information, comprised of the opinions of former students, hopes to make the process easier.

Resources: On average, students often find it takes roughly two to four weeks to find an apartment in the Tel Aviv area. Many have often found valuable resources online that are useful in locating places. Facebook groups such as Secret Tel Aviv, Looking for an apartment in Tel Aviv, Apartments/roommates in Tel Aviv, Tel Aviv Apartments available and Tel Aviv Apartment – Buy/ Sell/Rent/Trade!!! have proven useful. Other websites students have had success with are yad2g.co.il and zvz.co.il. Additionally, you can post requests yourself on these Facebook groups indicating that you are looking for an apartment or room rental. Additionally, offline resources, such as friends who are looking for roommates or agents that have been recommended by people you trust may also be beneficial, although agents will charge a fee. When searching for apartments or analyzing contracts, the student lawyer may be helpful, particularly if the contract is in Hebrew. Additionally, a trustworthy Hebrew-speaking friend or an Israeli roommate can also be useful in dealing with these language barrier issues.

Before you find a Place: Hostels often used by students in the few weeks before they arrive in the country. Former students have suggested that befriending the people who work at the hostel may prove beneficial when finding a room opening in an apartment. Additionally, Airbnb is a commonly utilized resource that many students have used for short-term rentals. Vacation rentals, short-term sublets or friendly contacts in Israel are also an option for housing while looking for more suitable long-term dwellings.

When You Find a Place/Signing Leases: As stated before, it usually takes roughly two to four weeks between beginning your apartment search and signing a lease committing to an apartment or room rental. Students have often found that they will have to visit many apartments before finding one that suits them. Oftentimes, there is a degree of pressure to sign quickly because of the demand for new apartments. However, one should make sure they understand the terms of the contract before they commit to a lease and utilize the resources listed above if necessary. When examining the lease, ensure that you understand all the fees and what you will pay for and what the landlord will cover. These include the water bills, electricity bills, the internet bills and the municipal tax (known as an Amona). You may be expected to cover some or all of these bills depending on the landlord.

One should also ensure that they understand the possible financial penalties that the landlord may have entered into the lease. These may include fees for damages, late rent payments, leaving the lease early or the cost of any repairs, as well as to repaint the walls after you leave. If renting a furnished room, also ensure in the lease that the contents of the room listed in the contract are accurate so that landlord does not claim that items are missing when you leave. Before signing a lease, determine what the landlord’s
responsibility is when it comes to repairs in the apartment for issues such as plumbing and electricity. As stated earlier, language barriers may be an issue when signing a lease, so utilize the resources listed above, such as Israeli friends or the student lawyer who will do consultations free of charge.

Security Deposit: Many places require a security deposit, which may be the equivalent of one to several months’ rent. One should understand the terms of the security deposit before signing the lease, including the extent of the landlord’s access to the deposit. Ensure that no damages occur before you leave the apartment and check thoroughly before you depart so you can recover the whole of the security deposit. If you feel that the damages existed before or were not your responsibility under the terms of the lease, you are within your right to dispute said charges through a discussion with your landlord. Often, a tenant will be expected to produce their rent cheques and a guarantor in advance and this may require that one has access to a chequing account in Israel. Banks such as Discount allow foreigners to open bank accounts in Israel. This is by no means the rule, however, and many landlords will accept month to month payments, often by bank transfer. Additionally, one can find an apartment where the lease is under one of the roommates’ names and then pay the rent and bills to said roommate, thereby avoiding these responsibilities altogether.

Landlord: Before signing any lease, a potential tenant should meet with their landlord to determine the landlord’s character. If he or she seems impatient, racially or religiously intolerant or unnecessarily aggressive, it would probably be advisable to pursue another place, regardless of the benefits of the apartment. Additionally, even kind landlords may have other distractions that will prevent them from dealing with problems that may arise. A common issue is landlords who are out of the country and thereby inaccessible when problems in the apartment occur. If possible, it may be best to avoid renting from landlords who are abroad for extensive periods of time. When problems arise in the apartment, some students have found that getting repairs done may require a degree of tenacity. If your lease indicates that it is your landlord’s responsibility to cover these repairs, it is often advisable to keep calling them if they seem like they are dithering on maintenance issues. This is often not because the landlords are mean-spirited, but because the apartment rental is a side-business and they are distracted by other career responsibilities. Hence why repeated calls may be necessary.

Bills: One should also note that bills may not be received every month at a specific time, particularly if the landlord controls the dispersion. Some students have found that every two months may be the norm and you may or may not be given access to the bills directly. Oftentimes, you can request that you pay the bills yourself and have them placed under your name, but this may require the use of a translator to understand the charges.

When Leaving the Apartment: It is advisable to start inquiring about the return of your security deposit well in advance of leaving, maybe even one month or so, in case the landlord is slow to respond or out of the country. If you require to leave the apartment early and break your lease, you can often discuss this with your landlord and work out an arrangement. Usually this entails finding a replacement to take over your apartment or room for at least the duration of your lease. There will also usually be some financial penalty for breaking the lease, which may vary depending on the contract you have signed. Again, check your contract and ask your landlord questions before you sign. Additionally, it is recommended that you have a lawyer examine your contract in advance to ensure that you have the ability to break the lease if necessary.
In Summary: Hopefully, this guide will prove useful in your apartment search. The resources and advice in this handout is a compilation of information from former students based upon information that they wish they had had before moving to Israel. It is important to use your best judgement when looking for an apartment, along with trusted resources that can provide you with assistance and legal expertise. Finding an apartment that you are comfortable living in can have an impact on your time here in Israel, so strong preparation is essential. For opinions on housing issues, feel free to speak to the counselors at the International Grad Office (Naomi and Danielle).

HEALTH TIPS

As when visiting any foreign country, there are often some adjustments your body will need to make to the new environment. Newcomers to Israel may suffer from an initial sensitivity to tap water, and at the same time should also be acutely aware of the high risk of dehydration, especially during the summer months. Bottled water is recommended for those with sensitive stomachs, especially at the beginning of their stay in Israel.

The sun in Israel is extremely strong, much stronger than in many temperate-climate countries. If you plan on being outside for even 20 minutes, you should wear some form of sun protection. If you will be at the beach all day, you will need to reapply sunscreen regularly. You may want to bring a sufficient supply of your favorite sunscreen, as it may not be available in Israel or may be significantly more expensive. Wearing a hat when out in the sun is highly recommended.

If you are taking prescription medication, you should bring a supply to last the entire time you are in Israel. It is also recommended that you bring a typewritten, generic prescription for your medication, if you need to have it refilled. Since not all medicines in Israel are available under the same brand names as in your country, it is essential that a generic name be provided for reference by a local doctor or pharmacist. In the event that you are sent an additional supply of medication by mail, you may be required to present a prescription to the Israel Customs Office before the medication will be released. Finally, please keep in mind that while many drugs may be purchased over the counter in your home country, they may not be available as such in Israel.

TAU suggests that students consider carrying private comprehensive health insurance. In the event that a medical need arises that is excluded by the policy - such as a pre-existing condition or prescriptions - your insurance may enable you to recover those costs. Please make sure that you have insurance coverage that is effective throughout Israel if you plan on being in the country before the program begins. If you travel abroad either during or after the program, please ensure that you have insurance coverage that is effective anywhere you intend to travel. If you do travel outside of Israel, make sure you come by the office to get a letter from Tel Aviv University International to show airport security upon returning to Israel.

COMMUNICATION

Post Office
There is a post office located across from the main gate of the University, on Levanon Street, across from the main entrance to the University. There are many services and products offered, including postage stamps, phone cards, fax services, money exchange (with better rates than at the bank), and money orders via Western Union. You can even get a credit card and pay most of your bills there.

For more information about Israel's Postal Services go to:
http://www.israelpost.co.il/hpcontent.nsf/EntryHomePage?ReadForm&L=EN

You should allow at least ten days for a letter mailed from Tel Aviv via standard airmail to be delivered in New York. Delivery to other points in the United States may take longer. Mind this gap in time when you send a letter home and vice versa. For reduced delivery time, mail may be sent by Special Delivery Air Mail from the United States or by Express Mail from Israel at an additional charge. Packages may be sent by air or surface mail, the latter taking up to several months for delivery. Packages sent by mail may be subject to duty charges.

For students living in the dormitories, mail that is sent to the university is delivered to a central mailbox outside of the Tel Aviv University International Office. It is recommended to periodically check this box for your mail and messages.

Mail should be addressed to:

Carter Building, Room 108
Ramat Aviv, Tel Aviv 6997801
ISRAEL

Time Zone
Israel's time zone is UTC + 2. Israel follows Daylight Saving Time, but has a slightly different changeover schedule than Europe and North America. For the exact time in Israel click

Israel is seven hours ahead of Eastern Standard Time (for example, when it is 4:00 a.m. in New York, it is 11:00 a.m. in Tel Aviv). Keep in mind that Israel follows a slightly different changeover schedule for daylight savings time.

Telephone Services
In Israel, there are several service providers for mobile phones, such as: Cellcom, Partner, Pelephone, Hot Mobile, Golan Telecom, etc. This is a very competitive market and it is recommended to check several companies for service plans. Also, ask your Israeli colleagues and friends for recommendations. Please note that Israeli law forbids signing long-term commitments with communication service providers.

Tel Aviv University has arranged for international students to receive a rent-free cell phone through IsraelPhones for short-term plans. We recommend that all students carry these phones for their convenience and safety. To sign up for your phone or for a complete list of benefits, go to http://www.israelphones.com/tau.htm. If you choose this option, you will be charged a fully refundable
**$175 deposit** to ensure that your mobile phone is returned. For a complete list of benefits for both students and parents, please refer to the above webpage.

**International Calls**
Since the international telecommunications market in Israel was opened to competition, rates on international calls dialed directly from Israel are often cheaper than from the opposite direction. To make an overseas call, dial one of the following 3-digit codes before your country code and area code: 012 (Smile), 013 (Netvision-Barak), or 014 (Bezeq International). If you are coming to Israel from the United States or Canada, you may want to purchase Vonage or MagicJack to make long-distance calls. In addition, using Skype from a computer or WhatsApp is always an option.

**Internet Access**
Wireless internet is available in most places on campus, including cafeterias. In addition, all libraries have designated computer labs for students. The rooms in Einstein and Broshim dorms are wired. All the computers used at Tel Aviv University are PC compatible. If you decide to bring your own laptop computer please make sure that it is compatible to 220 volts.

The university’s free wireless network is called "Free-TAU" and the password is "free-tau".
LANGUAGE STUDY OPTIONS

INTENSIVE HEBREW ULPAN

A number of Ulpan (intensive Hebrew program) options are offered to international students during the summer and the academic year. Students may be eligible for scholarships in foreign language programs; please approach the language course coordinators for information. The Division of Foreign Languages also offers intensive one-year courses in French, German, and Spanish for students studying toward a post-graduate degree. The courses are intended for students whose department or faculty requires a second foreign language for use as an academic/research tool. Students are advised to inquire which languages their individual department accepts as second foreign languages. These intensive courses meet for two 3-hour sessions per week.

WRITING CENTER

The Center for Language Excellence (CLE) provides one-on-one tutoring in English and other foreign languages.

In today’s global world, the importance of foreign languages is at the forefront in higher education. Consistent with its emphasis on global research partnerships, and with its growing number of international degree programs taught entirely in English, Tel Aviv University offers students a writing/language center specializing in one-on-one tutoring in English as well as other foreign languages.

The Center for Language Excellence (CLE) at the Division of Foreign Languages, the first of its kind in Israeli higher education, caters to the language needs of both Israeli and TAU international students as well as faculty and staff. For a nominal fee, TAU community members can improve their English writing, reading, speaking and conversational skills, as well as obtain 1:1 guidance on academic papers, theses, dissertations, oral presentations, professional CVs, post-doc applications, grant and fellowship
applications, and more. The sessions are given by TAU faculty members and experienced language tutors. In addition to English, tutoring is available in other languages, including Arabic, French, Italian, Polish, Portuguese, Spanish, Russian, Turkish and more.

Commenting on the added value of CLE, TAU PhD history student Claudia Stern from Chile says, “I truly believe that CLE is one of the best tools TAU can offer young scholars in the making. I have been working with my tutor at CLE on abstracts, conference papers, articles, CV, and post-doctoral proposals and I have much gratitude for the experience which has definitely helped me enhance my professional profile”.

For more information, contact CLE at cle@post.tau.ac.il or visit the website at: http://cle.tau.ac.il/.

BANKING

We advise our students to avoid traveling to Israel with large sums of money, but you may want to have a small amount of cash for your first days. Do not open a bank account in a U.S. branch of an Israeli bank since Israeli branches do not have information about accounts opened abroad.

Opening an Israeli bank account

The main banks in Israel are Discount, Leumi and Hapoalim (all have branches conveniently close to campus). Some international students choose to open an Israeli bank account. Certain services, such as depositing checks, can only be done at the same branch at which you opened your account, but withdrawing money from an ATM can be done from any bank. American citizens must report their Israeli bank account in their annual income tax filing, regardless of its duration and total sum. As a post-doc or PhD student, you are entitled to open a student account which will save you a lot of fees.

- If you do not have Israeli ID, the bank clerk, when opening an account, will randomly assign you a fake ID number. Please make sure you write down this number. You will need it for future services provided by the bank.

These bank branches, which are around campus, open bank accounts for foreign citizens:

- "Discount" bank branch on Yehuda Ha-Nasi st. 34 (most recommended by students)
- "Leumi" bank branch on Brodetski st. 43
- Israel post office, Chaim Levanon st 67
- "Leumi" bank branch on Aba Akhime’ir st. 15
- "Leumi" bank branch on Rav Ashi st. 18

Mandatory to have while going to open a bank account

- Passport
- Additional ID (could be the ID from your home country or a driver’s license)
- TAU Student I.D or A study approval letter from the university (a formal form that states your studying in the university this year, the same one used for the Rav Kav)
ATM Cards
The easiest way to have immediate access to your money from your account in the United States is with an ATM card. We strongly suggest that you arrange for an ATM card from your local bank along with a 4-digit PIN number (personal identification number), and that you make sure it can be used in Israel. Please be aware that you will not be able to use a debit card that does not have a credit card logo. Therefore, you should make sure that your bank card is both a debit card and a credit card even if you will not use it as such. We do not advise relying exclusively on ATMs as your only source of cash, due to potentially high transaction fees per each withdrawal.

Credit Cards
The most popular credit card in Israel is Visa. MasterCard and American Express are also widely accepted. Most businesses accept these cards for goods and services, and banks offer cash advances. Transactions are then billed to an account back home.
CAMPUS LIFE

TEL AVIV UNIVERSITY CAMPUS
Situated in the heart of Israel’s coastal region, Tel Aviv University resides on a spacious 220 acre campus. Located in suburban Ramat Aviv, just north of the city, the University is minutes away from downtown Tel Aviv. Tel Aviv University’s proximity to the cultural and commercial capital of Israel allows students to absorb the best of Israeli society.

TAU INTERNATIONAL SOCIAL OFFICE
To complement your academic experience, TAU International puts great emphasis on the social component of your TAU experience. This was the basis of the establishment of our graduate students’ social office.
Our social counselors are here to help you with all the non-academic components of your life in Israel: consulting on day to day issues related to your adjustment to Israel, helping with housing, helping you work with the medical insurance (if needed), etc. They’re available for you 24/7 for any type of emergency.
Our counselors also conduct a broad social program that includes trips all over Israel (North, South, Jerusalem), parties, cultural events, etc. They will do this while also providing you with the tools to help you to integrate independently into Tel Aviv’s vibrant cultural scene.
In addition the Student Life Team established an international student senate with representatives of all the international graduate degree programs, PhD’s and Post-Doc’s to help students raise important issues that help them in their non-academic experience on campus as well as give them the platform to initiate and contribute to the international student community.
Also, our Student Life Team is active in volunteering projects. You will get more information about volunteering opportunities during the orientation week.
Important for you to remember all the way: the counselors are here to help you!

GREEN CAMPUS AT TAU
In a milestone for environmentalism at TAU, the university was accredited in 2011 as a "green campus" by the Israeli government, in recognition of its efforts to create a more sustainable institution. The accreditation is awarded to Israeli universities that implement programs in three key areas: academic degrees and courses in environmental studies (given by the Porter School of Environmental Studies), heightened resource efficiency through recycling and reduction of electricity and water use, and community-related projects that strengthen environmental awareness both on and off campus. Among the green innovations at TAU are more energy efficient lighting, the “Nature Campus” educational initiative, stands for the city of Tel Aviv’s new bicycle rental system, and a comprehensive plan for campus bicycle paths.

TAU’s support for sustainable projects on campus is further underscored by the Porter School of Environmental Studies’ new Eco Building. The Eco Building is designed to meet the highest standards of green building- platinum LEED- and will demonstrate innovative environmental technologies.
LIBRARIES

As a Tel Aviv University student, you will have access to all of the University’s general and professional libraries. A complete list of on-campus libraries is available at: http://www.tau.ac.il/libraries-eng.html.

ENGLISH-SPEAKING STUDENT CLUBS

The Students Union coordinates several clubs run for the students in English such as Soccer/Running club, etc.

Model UN is an academic simulation of the United Nations that aims to educate participants about current events, selected topics in international relations, diplomacy, and the United Nations agenda. The participants role-play diplomats representing a country or NGO in a simulated committee session of the United Nations, such as the Security Council, or the General Assembly. Participants research a country, take on roles as diplomats, investigate international issues, debate, deliberate, consult, and then develop solutions to world problems. For more information and registration, please contact: taumunclub@gmail.com.

The Ambassadors’ Club is a project of Tel Aviv University International and Stand With Us, aiming at establishing a leadership and advocacy program that allows outstanding international and Israeli students from TAU to be trained by experts in an interactive fashion. Through eight sessions, including a field trip, the program provides the students with necessary tools in different disciplines concerning public advocacy and diplomacy. Throughout the semester, the club uses a two-level approach: on the one hand, offering information regarding the issues, and on the other, developing the skills necessary to best utilize this knowledge. Please contact Tel Aviv University International for more information.

The Buddy System provides the opportunity to meet and build real friendships with Israeli students. The experience is enhanced by Buddy System activities such as trips, lectures, volunteering, parties, and more.

The project is led by four student volunteers and a team of passionate students who want to meet you and make your TAU experience unforgettable.

Food and Living Expenses
Tel Aviv is a relatively expensive city, but it is also possible to economize. Plan to spend up to 1,200 USD per month for food, independent travel, and incidental expenses. Allow about twice as much for the first month to cover initial purchases. Of course, the amount spent varies per person (you can purchase discounted supermarket vouchers).

There is no inclusive meal plan at Tel Aviv University. There are several supermarkets nearby, as well as shops that sell prepared foods. University subsidized cafeterias on campus serve excellent kosher meals at very reasonable prices. There are plenty of restaurants and cafés in close proximity to the campus.

Some of the larger grocery store chains in Israel are Shufersal (also known as Shufersal), Mega, and Tiv Ta’am. Supersol and Mega are closed on the Sabbath (Saturdays), and everything in the stores is kosher. Tiv Ta’am, on the other hand, sells non-kosher products and is open on Saturdays.

Also open on Saturdays is AM:PM, which is a grocery chain that sells fresh produce and most staple groceries. As the name suggests, AM:PM is also open all night long.

The two main health food chains are Teva Kastel (many locations throughout the city) and Eden (in Gan Ha’ir shopping center - Ibn Gvirol Street at the corner of Hadassa Street). Many international products are also available at these stores. If you are looking for marmite, sushi rice, curry, or root beer, this store is for you!

Another great way to shop is by visiting the outdoor markets. Carmel Market, located at the intersection of King George, Allenby, and Sheinkin Streets, is a great place to get anything you might ever need. Beyond food, the market also has shops that sell flowers, hardware, clothes, and many other items.

There are many free cultural events and the beach is free, but concerts, designer shops, and eating out can add up. The cost of living will therefore very much depends on you. We suggest that you consider adopting the eating habits of Israelis - fruit and vegetables are relatively inexpensive and readily available. Chicken is the most popular meat, as beef is costly and features less prominently in the Israeli diet.

On Campus Food
In each building there is a nice cafeteria- go and explore your culinary choices! Here are some options:
- Café Neto – In the Gilman Building, nice café and restaurant with salad bar, sandwiches, and hot food.
- Aroma- Coffee shop in the Diaspora museum. (near Tel Aviv University International offices)
- Food court- In Sharet building (McDonalds, Salads, Pizza, etc)
- KaKao- Coffee shop, Hummus and snacks. In law faculty, across from the Sharet building.
- Webb Building- Meat dishes, sandwiches, salads, snacks, etc
- King George: variety of dishes, low prices! right outside of TAU's main gate. To reserve, call: 03-5290202

School and Office Supplies
An office supply store is conveniently located at the main entrance of Tel Aviv University and sells most of the necessary supplies you will need for your academic studies. You will find everything from pens and notebooks to printers and USB memory sticks/flash drives. Students with a photo student ID receive a discount. In addition there is a store located in the Ramat Aviv mall as well as all over Tel Aviv.

In a milestone for environmentalism at TAU, the university was accredited in 2011 as a “green campus” by the Israeli government, in recognition of its efforts to create a more sustainable institution. The Capsule Building has received LEED Platinum Certification – the highest accreditation of the LEED certification system, developed by the US Green Building Council.
LIFE IN TEL AVIV
LIFE IN TEL AVIV

ABOUT TEL AVIV

Tel Aviv celebrated its centennial in 2009, having been founded during the Ottoman Empire's reign in 1909. The first modern Hebrew-speaking city, the name Tel Aviv is derived from the Hebrew word Tel, an archaeological term for an area where the strata of old cities are laid atop of one another, and the word Aviv, which means spring. The name is meant to represent rebirth.

Just south of Tel Aviv is the city of Jaffa - a city whose foundations date farther back than those of Jerusalem, and hosts the oldest operating port in the world. In the early 1900s, a group of Jewish residents chose to leave the city of Jaffa in order to establish a new neighborhood just outside the city's borders. This area became the first neighborhood of Tel Aviv.

With the influx of Jewish immigrants from Europe in 1924-1939, Tel Aviv became Israel's major center of commerce, culture, and arts. In 1950, Tel Aviv and Jaffa merged to form one municipality, known today as Tel Aviv-Yafo.

The Tel Aviv of today has maintained its distinction as the cultural and economic hub of the country. The city boasts a plethora of restaurants, beaches, museums, movie theaters, outdoor cafés, markets, boutique shops, bars, and clubs. This combination has attracted the nation's youth and young professional crowd in droves, thus earning the reputation as Israel's city that never sleeps and a major tourist destination along the Mediterranean coast.

Tel Aviv and the surrounding areas (known as Gush Dan) comprise approximately 2.5 million citizens, which is about one third of Israel's population. While the actual population within the city's limits is around 400,000, over one million people commute to Tel Aviv each day.

We hope you enjoy living in this exciting city during your year of study and encourage you to get out of the classroom and campus as much as possible to discover and enjoy your new home. Below are a number of websites about life in Tel Aviv:

SUSTAINABILITY IN TEL AVIV

From local organic community gardens to large organizations fighting for national laws on environmental issues, Tel Aviv is the heart and mind of environmental initiatives and houses the offices of most of Israel's numerous environmental NGOs (non-governmental organizations). Together with the increasingly influential work of these NGOs, a new generation of environmentally conscious Israelis is growing and developing.

TRANSPORTATION

It is very easy to travel within Tel Aviv by bus, foot, or bicycle, depending on the distance. For example, the ride from the city center to the University is 30 minutes by bus, even though the distance is just a few kilometers. If you live in Ramat Aviv, you can walk to the University. If you live in the city center, it is possible to walk to the beach and ride a bike to almost anywhere in the city. Buying and maintaining a car is very costly, and parking is a very frustrating and expensive endeavor. If you plan to go out at night, your best bet is to take a taxi.

Please check which ‘Rav-Kav’ student profile suits you best. ‘Studan’ is a semester/year program that can be worthwhile if you use it daily. You can also get a regular Rav Kav with 30% student discount.

To issue the card, please bring your student card and an approval from TAU (get it in our office), to the Arlozorov Bus Station or the Central Bus Station (7th floor), Sun-Thu 8am-6pm, Fri 8am-1pm. During the first week of the semester, you can get it at the Student Union tent on TAU Campus.

JEWISH AND NATIONAL HOLIDAYS

All holidays in Israel begin at sundown on the previous day and their precise dates on the Gregorian calendar change from year to year. The High Holidays (Rosh Hashanah and Yom Kippur) will take place in mid to late September. Sukkot follows in the beginning of October. Other main Jewish holidays include Hanukkah, Purim, Passover, and Shavuot. There are also a number of national civil holidays celebrated in Israel including Holocaust Memorial Day, Memorial Day for Fallen Soldiers and Victims of Terror, and Independence Day. More details about these special days are provided below. Both Hillel and the Buddy System provide holiday-related programming throughout the academic year, and international students will be notified of all.

**Rosh HaShanah** - The holiday represents the beginning of the Jewish year and civil calendar; its name in Hebrew means “The Head (beginning) of the Year.” The holiday is a time when people look back at the occurrences of the past year and think about how they plan to make changes in the upcoming year. Families gather to share a large festive holiday meal.

**Yom Kippur** - The most solemn day of the Jewish calendar, Yom Kippur occurs 10 days after Rosh Hashanah. This “Day of Atonement” is a fast day, and is usually observed by attending synagogue to repent and ask forgiveness. It is said that on Rosh Hashanah, God writes the judgment of every person in the “Book of Life” and on Yom Kippur, the book is signed and sealed. Thus, the ten days between the two holidays is a time to ask forgiveness from others. Please note that most of the country literally closes down during Yom Kippur, including transportation, both public and private.

**Sukkot** - Translated as “The Feast of the Tabernacles,” Sukkot is both a religious and agricultural holiday. The holiday commemorates the forty years that the people of Israel wandered the desert after the exodus from Egypt. The holiday is also a celebration of the harvest season in the region. During the holiday, families erect huts (sukkot) outside their homes, in which they sit to eat their meals and even sleep at night. In order for a hut to be 'kosher', its occupants must be able to see stars through the roof of the structure.

**Hanukkah** - Known as “The Festival of Lights,” Hanukkah tells the story of assimilation, suppression, and the fight to maintain the Jewish faith in the face of secularizing Hellenism. During the holiday Jewish people light an eight-pronged candelabrum to symbolize the eight days that the oil burned in the Temple after it was reclaimed from the Hellenists. The connection with oil extends also to the food that is customary to eat during the holiday - jelly-filled donuts and latkes (potato pancakes).

**Tu B’Shvat** - The “New Year for the Trees” is celebrated by planting trees in Israel and eating different kinds of dried fruit and nuts. The holiday is another agricultural holiday that has its roots in the ”Mishna” (rabbinical commentary on Jewish law).

**Purim** - Purim or “Lots” commemorates the time in which Jewish people living in Persia were saved from extermination at the hands of Haman, the king’s advisor. On this holiday, the Scroll of Esther is read twice, small gift packages of goodies are sent to friends, and people dress up in costume and celebrate.
Passover - Commemorating the exodus from Egypt, this holiday is observed in a number of ways. During the first night, the story of the flight from Egypt is recited around the dinner table. Throughout the weeklong holiday, there is a very rigid dietary requirement of not eating bread or any other leavened food. In fact, Israeli law prohibits the sale of these items during Passover, so you may choose to stock up in advance.

Holocaust Memorial Day - Starting at sundown, TV broadcasts and radio programs are dedicated to the subject of the Shoah (Holocaust in Hebrew). A two-minute air siren goes off at 10:00 the following morning. During the siren people drop whatever they are doing in order to stand in silence and contemplation. Memorial ceremonies are held at the University and main city squares (Rabin Square in Tel Aviv).

Memorial Day for Fallen Soldiers and Victims of Terrorism - One week after Holocaust Memorial Day, Israel commemorates its soldiers who have fallen in battle and the victims of terrorism. A siren is sounded at 8:00 p.m. and again at 11:00 a.m. the following morning. It is customary to stop and stand in silence during the sirens. Local radio and television channels will also broadcast programs commemorating the fallen, as well as events leading to the creation of Israel and its subsequent wars. Ceremonies are held both on campus and at Rabin Square. Immediately at the conclusion of Memorial Day (Yom Ha-Zikaron), Israel’s Independence Day begins.

Israel Independence Day - At the precise moment that Memorial Day ends, Independence Day (Yom Ha-Atzma’ut) begins - drawing an inseparable link between fallen soldiers and victims of terrorism and the country’s independence. The mood instantly changes as people celebrate Israel’s independence. Ceremonies are held at night in Rabin Square, and the next day many people celebrate by getting together with friends and family for a barbeque (mangal or al ha’esh in Hebrew).

Shavuot - This holiday is otherwise known as Chag Matan Torah, the holiday to commemorate when the Jewish people received the Torah (first five books of the Bible) at Mount Sinai. Shavuot comes 49 days after Passover, and illustrates that while the children of Israel were physically released from bondage on Passover, they were redeemed from idolatry and immorality by receiving the Torah on Shavuot. On this holiday, it is customary to eat dairy products, particularly cheesecake, and study Torah through the night.

Tisha B’av - Occurring on the 9th day of the Hebrew month of Av, this is a day of fasting and mourning in commemoration of tragedies that have befallen the Jewish people. According to tradition, both the First and Second Temples in Jerusalem were destroyed on this date.

WORKING HOURS IN ISRAEL

The Israeli work week is from Sunday through Thursday, with a few offices also open on Friday mornings. The weekend for most office workers is Friday and Saturday. At Tel Aviv University, courses are held and administrative offices are open from Sunday through Thursday, although some academic activities do occur on Friday mornings. Stores in Israel are generally open from Sunday through Friday afternoon. Some malls and stores also open for Saturday evening shopping.
TOURING AND ACTIVITIES

It is recommended you travel throughout Israel to maximize your experience. For university-organized trips, students need a backpack large enough to carry two changes of clothes, sturdy walking shoes, and a sleeping bag (most youth hostels provide sleeping bags but some do not). Your sleeping bag can also double as an extra blanket in your dorm room during the winter months. If you are an avid hiker, you may want to bring a larger backpack, sleeping bag, hiking boots, a flashlight, and a mess kit.

During your stay in Israel, there will be many opportunities for personal travel. You may wish to visit sites in Israel that are not included in the university organized tours or return to those that particularly interest you.

While there are no travels restrictions imposed on you by the university, we strongly urge you to seriously consider the potential dangers inherent in visiting countries with which Israel does not have diplomatic relations. Entry to and exit from these countries is not always easy, and TAU is not responsible for you should you decide to undertake such a trip. Additionally, TAU is not liable for any independent travel undertaken in the West Bank and the Gaza Strip.

We will be more than happy to assist you with suggested trips and places to visit. We will also be regularly updating you on the exciting events happening in and around the Tel Aviv area such as festivals, film events, conferences, and exhibitions.
