COME TO TEL AVIV THIS SUMMER FOR
SCIENCE AND INNOVATION
INTERNATIONAL SUMMER CAMP

SUMMER STUDY PROGRAM FOR HIGH SCHOOL STUDENTS GOING INTO THEIR SOPHOMORE, JUNIOR, OR SENIOR YEAR

CAMP DATES: 3.7.18–12.7.18

• During this unforgettable summer, high school participants will be co-living with Israeli students while taking courses and immersing themselves into the Israeli culture.

• Participants will explore innovative research and academics at Tel Aviv University.

• Exciting excursions, amazing field trips with memorable experiences and lifelong friends!

• Courses are taught in English by Tel Aviv University instructors.

• Various topics such as cyber security, nanotechnology, medicine, genetic engineering, physics and lasers, neuroscience, psychobiology, and more.

THE DAY WILL BE DIVIDED INTO THREE PARTS:

• Academic courses: The day will begin with students participating in academic courses from different scientific fields. A few examples of the subjects offered include: Physics, Cyber Security, Medicine, Microbiology, Astronomy, Space Research, Psychology, Communications, Entrepreneurship, Innovative thinking, Sustainability

• Trips and excursions to high-tech companies and advanced research labs, including StarTAU – the biggest enterpriser center in Israel.

• Enrichment and Social Activities: The final part of the day is dedicated to enriching the student’s general knowledge of Israeli culture, music and art. Students can look forward to fun activities including Israeli dance, falafel dinners and movie nights.
