A general question that incorporates different matters, without differentiating among them, does not require an answer as said, unless it was reasonable at the time of entering into the contract.
 - 2.1.1. A deliberate deceptive concealment on the part of the Insured of a matter that he/she knows is an essential matter, shall be equivalent to providing an answer that is incomplete and dishonest.

This term shall not apply if the Insured provided a means of payment from which it is possible to collect the insurance premium. If the Insurer does not, within 90 days from the date of receipt of the insurance fees for the first time, send a rejection notice as said above or a request for completion of data or a counterproposal for insurance, the Insured will be considered to have been accepted for the insurance under

the terms specified in the insurance proposal. If the insurance candidate has an insurance event during the period between receipt of the insurance fees for the first time and the Insurer's decision regarding his/her acceptance or non-acceptance to the insurance, and if, according to the instructions of the Insurer's medical underwriting regarding insurance candidates with similar characteristics, the Insurer would have notified the insurance candidate at the end of the underwriting process of his/her acceptance for insurance (were it not for the occurrence of the insurance event), the insurance candidate shall be entitled to coverage under the Policy for the insurance event, subject to all the other instructions and terms of the Policy.

It is hereby clarified that the undertaking of the Insurer according to this rider shall apply on the condition that the basic insurance policy and this rider are in effect at the time of the insurance event, as set forth in this rider.

6.1. **Definitions:**

In this rider:

6.1.1. **Accident:**

A physical injury caused by the application of physical force only, as the result of a sudden, singular, and unexpected event, caused directly by an external and visible entity, which constitutes the sole direct and immediate cause of the occurrence of the insurance event. **To eliminate any doubt, verbal violence and/or emotional pressure and/or a cerebrovascular accident and/or the accumulation of small repeated injuries over a period of time that lead to disability shall not be considered an "accident."**

6.1.2. **Loss of organs:**

Total loss, anatomical or functional, of an organ or limb or part thereof, due to an accident that occurred in Israel during the insurance period.

6.2. **The undertaking of the Insurer:**

If there occurred to the Insured in Israel within the insurance period death or loss of organs the direct cause of which was an accident, insurance benefits will be paid as follows:

- 6.2.1. **Death of the Insured** – In the case of death of the Insured **due to an accident**, the beneficiaries, and in the case that no beneficiaries were named – the legal heirs of the Insured or the executors of his/her estate, according to the inheritance order and/or the will probate, will be paid insurance benefits according to the amount specified on

the table of the limits of liability in the Policy on the condition that the Insured was over the age of 18 (inclusive) and up to the age of 75 (inclusive) on the date of the accident.

6.2.2. **Loss of Organ(s)** - In the case that an Insured, over the age of 18 and up to the age of 75 (inclusive) at the time of the accident, suffered a loss of organ(s) (as defined in Section 6.1.2 above), he/she will be entitled to the percentage specified in the table of the limits of liability in the Policy. For example, if the Insured suffered the loss of a leg, and the maximum insurance specified is \$10,000, the Insured in this case will receive: $60\% \times \$10,000 = \$6,000$.

An Insured who at the time of the insurance event had not reached the age of 18 years shall be entitled to half of the above-said compensation.

If the Insured had an existing disability prior to the accident event (according to medical documentation), the rate of the existing disability will be deducted from the percentage for loss of an organ for which the Insured is entitled to payment according to this section.

Organ	Organ	Right	Left	
One eye	30%	Arm	75%	65%
Two eyes	100%	Forearm	65%	55%
One ear	20%	Hand	60%	50%
Two ears	50%	Thumb	25%	20%
Leg (above the knee)	60%	Index finger	15%	12%
Thigh	70%	Middle finger	12%	8%
Foot	50%	Ring finger	10%	8%
Big toe	5%	Pinkie finger	12%	10%

The percentages noted in this table refer to 100% loss of the said organ.

Organs that are not listed in the above table - in any case in which loss of an organ/s (as defined in Section 6.1.2 above) occurs, the amount of compensation shall be determined according to the determination of a medical expert in the field and shall be paid as a percentage of the maximum insurance amount specified in the table of limits of liability for the Policy. For example, if the Insured suffered the loss of an organ as defined in Section 6.1.2 above, and the organ is not listed in the above table, and a physician determined that this is a case of 10% disability and the maximum insurance amount listed is \$10,000, the Insured in this case will receive: $10\% \times \$10,000 = \$1,000$.

A disability of the Insured prior to the accident event (according to medical documentation) will be deducted according to the percentage of the existing disability, from the percentage of loss of the organ for which the Insured is entitled to payment according to this section.

The total maximum liability of the Insurer according to this rider shall not exceed \$10,000.
