The Lowy International School

Visiting Professor Initiative 2024-5

We are delighted to announce, for the sixth year, a call for hosting visiting professors at TAU during the 2024-5 academic year. Visiting faculty will join our campus for part of the semester and teach an intensive academic course.

The visiting professor will be entitled to up to \$7,000 for expenses (this amount is meant to include honorarium, flights, and accommodation). The length of the visit would be 2-4 weeks.

Each TAU school is allocated funding for one visitor.

Additional guidelines:

- The course taught must be for academic credit (at least 2 credits).
- Only visiting faculty that have not taught at TAU in the past three years are eligible. However, we may consider supporting again a course that was previously offered under this initiative and was proven successful (served a relatively large number of students, course evaluations were strong, was innovative and complementary to the department's curriculum, etc.)
- We would like to emphasize that this initiative is intended to increase the scope of international activities on campus and not to cover existing visits that a school or faculty has already included in their annual plan.

Please fill out [this form](#) for each of the visits/courses requested. For Inquiries, please contact Sharon Ziv Kafri, Director of International Development at the Lowy International School, at sharonziv@tauex.tau.ac.il , Internal Tel: 4310.

Please include the following information in your requests:

Name of visiting faculty, home university, CV, course title in English and short syllabus, target audience (Bachelor's / Master's / Doctoral students), Type of course (Required / Elective / Seminar), number of credits, length of the visit, chosen format.

Deadline for submission of candidates – May 31, 2024.

We look forward to receiving your proposals,

The Lowy International School
