

*"Last summer, I followed my heart back to Israel and found myself studying in the Ulpan program at Tel Aviv University. Learning Hebrew has always been a goal of mine, and TAU really made it possible. After only a few hours of class-time with two of the most dedicated and helpful teachers I have ever had, I was reading street signs in the city and introducing myself in Hebrew to new friends at the beach. This program allowed me to gain a deeper understanding and love of Israel as a student living in the heart of one of the world's most diverse and exciting cities. During time off, there were group trips to the North and Jerusalem which allowed me to meet other students, practice my Hebrew, and tour regions of the country that I hadn't yet been to. This was an experience that changed my life and has opened many new doors for my future. Thanks, TAU!"*

## ABOUT TEL AVIV UNIVERSITY INTERNATIONAL

TAU International programs are designed for students eager to challenge themselves with a high level academic experience. You will enjoy the "real" Israel by living and studying along side Israelis. Your classes will be enhanced by field trips, cultural and overnight excursions, social events, and much more. You will also gain real-world professional expertise through internships, guest lectures, and workshops with some of Israeli's leading experts. A global hub on campus, the TAU International office is your home during your time in Tel Aviv. The TAU International staff is always available to answer questions, and events are organized on a regular basis for international students.
