

JULY 3RD TO JULY 14TH, 2016

SUMMER
2016

COME TO TEL AVIV THIS SUMMER FOR THE SCIENCE AND INNOVATION INTERNATIONAL CAMP

A TWELVE DAY SUMMER STUDY PROGRAM FOR HIGH SCHOOL STUDENTS

For twelve unforgettable days, participants will be living with Israeli students while enrolled in academic courses and immersing themselves into Israel's culture. They will experience creative academics at Tel Aviv University, exciting site visits in Israel, and amazing trips filled with memorable experiences and lifelong friendships!

Courses are taught in English by Tel Aviv University instructors, who are passionate about various topics such as nanotechnology, medicine, genetic engineering, physics and lasers, neuroscience, psychobiology, and more.

The classes are creative, interactive, and non-competitive. Courses are designed as an open-ended exploration of current ideas in varied topics at the forefront of research. Tel Aviv Youth University will issue an official certificate for the completion of the course.

APPLICATION DEADLINE: MARCH 31ST, 2016

The day will be divided into three parts:

- **Academic courses:** The day will begin with students participating in academic courses from different scientific fields. A few examples of the subjects offered include:
 - Physics
 - Medicine
 - Microbiology
 - Astronomy
 - Space Research
 - Psychology
 - Communications
- **Trips and excursions** to high-tech companies and advanced research labs.
- **Enrichment and Social Activities:** The final part of the day is dedicated to enriching the student's general knowledge of Israeli culture, music and art. Students can look forward to fun activities including Israeli dance, falafel dinners and movie nights.
