ABOUT TEL AVIV UNIVERSITY INTERNATIONAL

TAU International programs are designed for students eager to challenge themselves with a high level academic experience. You will enjoy the ‘real’ Israel by living and studying along side Israelis. Your classes will be enhanced by field trips, cultural and overnight excursions, social events, and much more. You will also gain real-world professional expertise through internships, guest lectures, and workshops with some of Israel’s leading experts. A global hub on campus, the TAU International office is your home during your time in Tel Aviv. The TAU International staff is always available to answer questions, and events are organized on a regular basis for international students.

“Last summer, I followed my heart back to Israel and found myself studying in the Ulpan program at Tel Aviv University. Learning Hebrew has always been a goal of mine, and TAU really made it possible. After only a few hours of class-time with two of the most dedicated and helpful teachers I have ever had, I was reading street signs in the city and introducing myself in Hebrew to new friends at the beach. This program allowed me to gain a deeper understanding and love of Israel as a student living in the heart of one of the world’s most diverse and exciting cities. During time off, there were group trips to the North and Jerusalem which allowed me to meet other students, practice my Hebrew, and tour regions of the country that I hadn’t yet been to. This was an experience that changed my life and has opened many new doors for my future. Thanks, TAU!”

Carly Rosenfeld- Summer 2015

“Joining the TAU Summer Session was one of the best decisions I made – the best 35 days of my life. The program was well interlinked with academics and non-academic activities, we had the opportunity to see almost all of Israel, enjoy its beauty, and experience how amazing the city of Tel Aviv is.”

Tony Thomas, Summer Session Cyber Security

SHORT UNDERGRAD SESSION
June 28 – July 23, 2017
TUITION: $2,000 (4 CREDITS)

BUSINESS ENTREPRENEURSHIP IN THE START-UP NATION
Students can take advantage of this outstanding opportunity to analyze business entrepreneurship in the context of Israel’s technological thriving innovation.

RESEARCH PROGRAM IN SCIENCES
June 11 – August 13, 2017
Students join a laboratory or theoretical research project under the supervision of an experienced scientist while becoming full-fledged members of the scientific team.

SUMMER INTERNSHIP PROGRAM
Internship Session 1: June 11 – July 28
Internship Session 2: June 28 – August 27
Students have the opportunity to explore the exciting city of Tel Aviv while interning for a company/organization in a field of their interest. In addition to your internship, you will also be taking an internship workshop course that will award you academic credit. Whether your passion is for Technology, Fashion, Business, or Political Science, TAU International staff will connect you with an internship that will offer you a unique and engaging experience!

HIGH SCHOOL PROGRAM
SCIENCE AND INNOVATION INTERNATIONAL SUMMER CAMP
July 4 – July 14, 2017
Tel Aviv Youth University offers an exciting 12-day Summer Camp for high school students after their sophomore, junior, and senior years. Campers can look forward to exploring diverse scientific issues and research, interactive visits to innovative organizations, amazing trips throughout the country, and a life lasting experience.

• Interactive coursework in physics, medicine, microbiology, astronomy, psychology and more.
• Trips and excursions to high-tech companies and advanced research labs
• Enrichment and social activities in Tel Aviv including Israeli culture and dance, falafel dinners, and move nights.

ADVANCED SUMMER PROGRAMS
The programs are open to graduate students as well as interested professionals. These advanced programs offer unique insight into a particular discipline. Classroom study is enhanced with site visits and activities relevant to the field of studies.

ADVANCED EPIDEMIOLOGY AND PREVENTIVE MEDICINE
July 9 – July 21, 2017
The Summer Institute of Advanced Epidemiology and Preventive Medicine in collaboration with Johns Hopkins School of Public Health provides a unique platform for clinicians, healthcare executives, policymakers, and students from Israel and around the world to participate in public health courses for professional development or academic credit.

FOOD SAFETY & SECURITY
June 28 – July 28, 2017
Courses offer a taste of diverse fields from International Development and Economics to Biology and Public Health. Students can choose from individual week-long courses or formulate one of the tracks offered: Agriculture Track or Policy and Nutrition Track. The courses are at a graduate level, include field trips, and are taken by both Israeli and International students.
