The Ultraorthodox in Israeli Society: Differentiation vs. Integration

(Spring 2019, 6 credits)
Dr. Sima Zalcberg Block

Course description and objectives
The course is designed to introduce students to Israel’s fastest-growing demographic group: The Ultra-Orthodox community ("Haredim"). Estimated at 12% of Israel’s population, forecasts suggest an incremental growth of up to 25% of Israel’s population by 2048. The Haredi community of today is transitioning from a small and marginal minority, to a substantial minority and thus, the future of the Jewish state is closely tied to the future of this sector.

The course will familiarize the student with the characteristics of the Haredi society and the various streams within this community. The right of minorities to protect their culture and the tension it creates in Israel as a liberal and democratic state will be examined. Many Israeli Haredim, with government encouragement, are undergoing a process of “Israelization”, characterized by integration without assimilation. The course will address various dimensions of Haredi integration into the society at large, which exists simultaneously with: isolationism, criticism, and strong verbal protest from both inside the community and the outside.

The course will include class discussions, presentations and movies relevant to the studied topics.

In addition, there will be a tour in Mea Shearim, the Haredi neighborhood in Jerusalem. The tour will give a glimpse into the rich cultural and religious identity of the Ultra-Orthodox Jews living in Mea Shearim.

The course also integrates a monitored and facilitated service learning opportunity, which includes weekly interpersonal meetings between students and young Haredi people, with the aim of getting to know each other and practicing speaking, reading and/or writing in English. This is a high need among the Haredi community who often do not have the chance to practice English with native speakers of English and do
not have the opportunity to speak English within their communities. These meetings will take place for approximately 2 hours each week. Some of the meetings may be held over Skype, however it is a requirement to have at least one frontal meeting a week of at least 60 minutes. Moreover, preparation for these meetings is required, taking 12-15 hours for the whole semester. Throughout the course, facilitation and support materials will be given for the preparation of these meetings and the service learning component of the course.
