

The Israeli Economy: Syllabus, Fall 2019

Tel Aviv University International

Dr. Paul Rivlin

paulrivlin@gmail.com

This course is suitable for all students but those who have completed an introductory course in economics will find it easier. Those who have not should be prepared to add supplementary reading.

The history of the pre-independence and modern economy. The role of population growth and immigration; problems of inflation and stabilization; the balance of payments; sectoral developments. The Histadrut, defense spending; the economics of the peace process and Israel's integration into the world economy. Recent socio-economic developments including the problems of the Arab and Ultra-orthodox communities.

Grading System: Attendance and class presentation 30%, final paper 70%
