This course will examine the major international security challenges facing the world today. It will use both empirical and theoretical materials to study the evolution of these challenges, from the cold war to the present day. The course will discuss the challenge that ballistic missile and nuclear proliferation poses to the stability of the international system and will include an analysis of Israel’s nuclear policy, the Iran nuclear weapons program, the conflict between India and Pakistan and the situation on the Korean Peninsula. The course is designed to enable students to gain a more comprehensive understanding of the fast-paced developments in the field of international security. The course will include guest lecturers, the screening of films to illustrate the themes under examination, a simulation game and interactive class discussions.

**TAU International Course Guidelines**

**Rules and Respectful Behavior**

- No cell phones or laptops permitted in class unless approved by instructor for use
- Tardiness to class is not permitted
- As our courses bring together students from many different styles of learning and from a wide variety of home institutions, we ask that students remain respectful to and patient with fellow classmates at all time as some students may be more familiar with certain course material or procedures than others.

**Learning Accommodations**

In accordance to University guidelines, students with learning disabilities or accommodation requests must submit official documentation from their home country/university (translated into English by notary if not already in English) to TAU International ([tauiacademic@tauex.tau.ac.il](mailto:tauiacademic@tauex.tau.ac.il)) in advance of arrival describing in detail any specific needs they have. Students must also bring a copy of this documentation with them on-site and give it to their faculty on the first day of class while introducing themselves so that the faculty know who they are and what sorts of needs they may have. TAU
International and its faculty cannot guarantee that all accommodations received at the home school can be similarly met at TAU but certainly does the best it can to make any suitable accommodations possible that are needed.

**In-class Exams**
TAU does not permit, under any circumstances, taking any in-class (including mid or final) exams early or later than the scheduled exam day. When selecting courses, it is thus very important to note below if there is an in-class midterm or final exam as this date/exam cannot be changed. Early departures from the program are not approved, nor are early or exception in-class exams.

**TAU International Absence Policy**
Attendance is **mandatory** in all of the courses. Missing classes will be reflected in the final grade of the course. Up to three justified absences from classes will be accepted (for example: emergency matter or illness, both of which will require an official doctor's note sent to the faculty **on the day of the absence**). Such cases of absence should be reported to your lecturer immediately and again, a doctor’s note is required. Students are required to arrive on time for classes. Teachers are entitled to treat any single case of lateness and/or repeated lateness as an unjustified absence. Please note that according to TAU Academic Policy, if a student’s behavior or attendance during the semester is disagreeable his/her course participation may be cancelled at the discretion of TAU.

**Students are responsible for reading and adhering to the policies and procedures in the TAU International Academic Handbook posted here at all times.**
