INTRODUCTION TO MODERN STANDARD ARABIC (MSA)
Michael Guggenheimer

Course Description and Goals
The Arabic language consists of a number of varieties: Modern Standard Arabic (MSA), which is the official language of 26 states and used mainly in written texts and formal settings, and various dialects of colloquial Arabic, one of which is the native language of every Arab. This course teaches the fundamentals of MSA. The goal of this course is to familiarize students with the Arabic alphabet, provide a basic vocabulary in MSA, and introduce the rudiments of Arabic grammar.

Students will be trained to acquire the following skills:
1. Familiarity with the Arabic alphabet and reading words in the Arabic script, including all vowels and other added signs.
2. Arabic typing and using online Arabic-English dictionaries.
3. Basic grammar and vocabulary of MSA.
4. Reading and understanding simple sentences.

Emphasis is on basic reading comprehension in MSA. Each session (two academic hours) will consist of four main elements: (i) A quiz (dictation in the first part of the course, and a vocabulary exam in the second); (ii) Review of the homework; (iii) Learning and practicing elements of the Arabic alphabet (in the first part of the course) and basic aspects of MSA grammar (in the second part of the course); (iv) Using basic vocabulary to form simple expressions and sentences (in the second part of the course).
